Technique	Female 14-17 years	Male 14-17 years

Flying high side kick	90	110

Note: Measurements for height are made from the surface of the floor or mat, to the bottom (lowest) edge of the board, or tape in the case of the high side kick.

For Twimyo Nopi Yop Cha Jirugi /Flying High Side Kick please note:

The competitor must break the board passing over the hurdle without knocking it down.

The competitor may adjust the height and/or distance of the target board prior to the attempt, provided that:

The board/target is aligned in whichever height and position the competitor desires, ensuring that the position/placement of the board is parallel to the hurdle and at a height at least equal to, or greater than, the height of the hurdle.

Protocol:

1. Adjust
2. Measure
3. Execute

This is the only Special Technique where adjustment is allowed. Adjustments must be done verbally, that is there shall be no contact with the board or board machine.

In Special Technique and Power test each competitor in turn will complete all the techniques. If the situation arises that a competitor, without completing all their techniques, is mathematically unable to contest a medal, they shall be eliminated without finishing all techniques. This is purely a time saving procedure.
